

Sarah Yuzi Sandström

Governance, Risk & Compliance · Security Operations · Customer Assurance

Kauniainen, Finland · sarahyuzisandstrom@gmail.com · +358 45 102 9420 · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

Early-career GRC candidate with a Computer Science background and hands-on projects in evidence validation, customer assurance, vulnerability management, regulatory monitoring and security awareness. Strong in stakeholder communication, documentation and practical automation.

CORE SKILLS

GRC — evidence validation · risk assessment · control investigation · remediation follow-up

Vulnerability management — CVSS · remediation SLAs · exceptions · compensating controls

Technical — Python · Streamlit · SQL · Git/GitHub · APIs

Customer assurance — questionnaires · answer libraries · evidence provenance

Frameworks — ISO 27001 · SOC 2 · GDPR · ISO 42001 · NIST

Communication — security awareness · technical documentation · stakeholder communication

SELECTED PROJECTS

2026

[Interactive demo](#) ↗

GRC Ops Lab

- Built an operational GRC lab covering evidence validation, customer assurance and vulnerability-management workflows.
- Modelled conflicting evidence, overdue vulnerabilities, exceptions, remediation and disclosure approval.
- Automated reconciliation and status checks while keeping analyst judgement human-led.

2026

[Interactive demo](#) ↗

GRC Change Monitor

- Built an AI-assisted workflow for monitoring regulatory changes against an established baseline.
- Surfaces changes for analyst review, impact assessment and documented follow-up.

2026

[GitHub](#) ↗

FridgeReady

- Mapped 23 ISO 27001 Annex A controls and relevant SOC 2 criteria.
- Produced a GDPR DPIA, RoPA, vendor-risk assessments and NIST incident-response playbooks.

2024

[Published thesis](#) ↗

Security Awareness & Privacy Research

- Authored a 57-page GDPR guide based on developmental research in an anonymised education setting.
- Designed and delivered scenario-based privacy and security-awareness training for non-technical staff.
